TEXTILE WORLD

A McGRAW-HILL PUBLICATION

INDEX

VOLUME 115
JAN. — DEC.
1965

McGRAW-HILL, INC.
330 WEST 42ND STREET, NEW YORK, N. Y.
10036

A

Air compressors (see **Compressed air**)

Air conditioning and cleaning (see also **Ventilation**)

Air-conditioning unit (ESN) — Oct. 174
Air-filter media (ESN) — Sept. 264
Filter, for removing lint in textile plants (ESN) — Sept. 276
Filter, Purex (ESN) — Oct. 172
Filters made of titanium (ESN) — Sept. 283
Filters save 3 man-hours a week (CC) — Mar. 126
High-velocity air washing (ESN) — Sept. 283
Humidifying system (ESN) — Aug. 134
Industrial dehumidifier (ESN) — July 297
Mist-spray hydro-conditioner (ESN) — Nov. 178
The John H. Montgomery Mill story – industry's newest plant has sparkle, space, and spirit — Aug. 42
Pt. 3 Building is spacious, services reliable — Aug. 50
Preventive maintenance schedule for your air-conditioning equipment — July 126
Roll filter units (ESN) — Oct. 179
The Springsteen story: how Springs updated engineering services — Nov. 49
System gives 100% clean yarn (CC) — Feb. 94
Textile plant buildings today – report — May 52
38 tips for building your new textile plant — May 52
Data chart: specs on 10 new textile plants — May 58
What a psychrometric chart will tell you — July 114
Yarn manufacturing today: is automation's big push underway? – report — June 46

American Association of Textile Chemists and Colorists (see **Associations**)

Associations

Alabama TOE meeting – getting top results at carding — Jan. 67
AATCC Charlotte meeting — Mar. 74
AATCC national convention – coated fabrics look big — Dec. 103
AATCC tackles printers' problems — Feb. 99
AMA meeting discusses coming look for cellulosics (FYF) — Jan. 113
American Society for Quality Control – 5 tips on controlling quality — Apr. 57
ASTME, 1965 – easy-to-use guide to the big show — Sept. 78
How to see the big show without hurting — Sept. 78
Where to go for food and fun — Sept. 81
Bonus benefits: conferences and seminars — Sept. 83
Something for the girls — Sept. 83
ASTME – how to find your way around — Sept. 84
ATME – Coming: mandate and opportunity (Ed) — Aug. 41
ATMI man-made-fiber meeting hears big things predicted by Celanese (FYF) — Dec. 113
Chemical Marketing Research Association – what textile chemical consumption will be in 1970 — Dec. 98
Cotton Finishing Conference – wash-wear, DP pack cotton meeting — Nov. 91
Cotton Research Clinic meeting – automation – bale to drawing — Mar. 67
Cotton Utilization Research Conference – cotton is fighting back — June 71
Fourth International Chemical Fibers Conference, Austria – man-mades make big gains – but more work ahead (FYF) — Nov. 137
Georgia TOE – what Georgia mills think about automatic filling handling — Dec. 66

Automation

Dyeing cycle automated (ESN) — Jan. 130
The John H. Montgomery Mill story – industry's newest plant has sparkle, space, and spirit — Aug. 42
Paradox in Haiti: automated yarn mill supplies primitive handweavers — Aug. 54
Swift Spinning Mills – textiles' most automated plant — June 60
Textile plant buildings today – report — May 52
38 tips for building your new textile plant — May 52
Yarn manufacturing today: is automation's big push underway? – report — June 46

B

Beaming (see **Warp preparation and beaming**)

Bearings

Bearings (ESN) — Sept. 248
Drawn-cup roller bearings (ESN) — Sept. 264

Belts, conveyor (see **Material handling**)

Bleaching (see also **Chemical treatment and finishing**)

Acid-peroxide bleaching solutions — Oct. 101
ATME 1965: design for the finishing and dyeing plants of tomorrow — Nov. 80
Batch bleaching method uses all the peroxide — Sept. 179
Batch system bleaches 30% faster (CC) — Mar. 126
Bleaching principle of sodium chlorite — July 217
Control boosts production 10% (CC) — Nov. 134
Covers save $100 in roll costs (CC) — Oct. 144
Fast bleach process lowers corrosion — May 101
Halides don't yellow melamine-resined goods — Jan. 75
Improved whiteness from optical bleaches — Feb. 102
Less silica buildup in peroxide bleaching ranges with sodium metasilicate — Oct. 101
Optical brightners give more whitening effect if applied at about 250 F. — Feb. 102
Polypropylene – old-time buck sour makes polypropylene dyeable — June 80
Producing finished bedspreads — Jan. 91
Versatile hoist cuts time losses (CC) — Nov. 129

Blended fabrics

Apparel fabrics spark Stevens' line (FYF) — July 283
Arnel-cotton tricot made for uniforms (FYF) — Oct. 79
Arnel triacetate and blends – some tips on processing (FYF) — June 129
Blend combines best of yarn and piece dyes (FYF) — May 79
Crepe tricot fabric looks like matte jersey (FYF) — Dec. 115
Dacron-cotton denims make debut as fabrics (FYF) — Sept. 225
Dacron-worsted knits biggest news at show (FYF) — Dec. 114
Durable-press corduroy is polyester-cotton (FYF) — May 78
How to process modified rayon-cotton blends (FYF) — Mar. 119
Jacquard brocade dress fabrics feature acetate-rayon-olefin blend (FYF) — July 284
Knit has Dacron outside and cotton inside (FYF) — Apr. 116
Knitted stretch pile makes no-shrink liner (FYF) — May 79
Kodel blends for Spring – homespun look sets pace (FYF) — Sept. 226
Lowenstein shows colors for spring '66 lines (FYF) — July 283
Nylon-polyester-cotton now covers luggage (FYF) — Aug. 75
Olefin-rayon blend has worsted-like hand (FYF) — Apr. 115
Permanent-press fabrics ready for home sewer (FYF) — Dec. 114
Polypropylene sock liner keeps wearer warm and dry (FYF) — Nov. 139
Rayon-cotton blend adds strength to shoe fabric (FYF) — June 127
Rayon-cotton blended in pebbly, flat knits (FYF) — Apr. 116
Rayon-polypropylene blended for brocades (FYF) — Mar. 117
Rayon and wool blends featured in newest knits (FYF) — July 283
Shrinkage resistance built into web fabric (FYF) — Dec. 114
60-40 Kodel-Verel made in links stitch (FYF) — June 128
Spring woolens marked by new fabrics, blends (FYF) — Sept. 225
Textured yarns, new blends mean more knits in men's wear (FYF) — May 78
Three-fiber loop knit looks like chenille (FYF) — July 285
Washable ski fabric is water repellent (FYF) — May 78
Wool, man-made blends show up big in Italy (FYF) — Jan. 113
Yarn blend controls fabric shrinkage (FYF) — Feb. 80

Blending (see **Opening, picking, and blending**)

Building construction (see also **Maintenance, buildings and grounds**)

Burlington's new center gives hosiery manufacturing a new look — June 120
Cantilevers cut steel needs 15% (CC) — Apr. 107
Ceiling panel, acoustical (ESN) — Dec. 138
Dock ramp (ESN) — Nov. 178
Doors (ESN) — Nov. 174
False ceiling ends damaged yarn (CC) — Nov. 134
Glen Raven Mills – new office design – image of a company on the move — Feb. 56
The John H. Montgomery Mill story – industry's newest plant has sparkle, space and spirit — Aug. 42
Pt. 3 Building is spacious, services reliable — Aug. 50
Paradox in Haiti: automated yarn mill supplies primitive handweavers — Aug. 54
Piping system (ESN) — Dec. 140
Swift Spinning Mills – textiles' most automated plant — June 60
Textile plant buildings today – report — May 47
Capsule characterizations of 10 new textile plants
1. American Thread Co. — May 48
2. Bloomsburg Mills — May 48
3. Dubois Dyeing Co. — May 49
4. Holliston Mills — May 49
5. George C. Moore Co. — May 49
6. Mt. Vernon Mills — May 50
7. Scotland Mills — May 50
8. Spartan Mills — May 50
9. J.P. Stevens & Co. — May 51
10. Swift Spinning Mills — May 51
38 tips for building your new textile plant — May 52
Data chart: specs on 10 new textile plants — May 58
Mill of tomorrow – a year later — May 63

C

Calculations, mathematical (see **Formulas and calculations**)

Capacity, industry (see **Economics, textile-industry**)

Capital spending (see **Economics, textile-industry; Management**)

Carding

Card (ESN) — June 144
Card drives help stop "blow-outs" (CC) — Aug. 88
Card feeder saves 22% in labor (CC) — Mar. 124
Card stop motion eliminates damage (CC) — Jan. 120
Carding system ups production 560% (CC) — Mar. 124
Coiler, Coilmaster (ESN) — Sept. 285
Drive cuts sliver breaks 90% (CC) — Oct. 143
8 cards do the work of 56 at this mill — Mar. 64
Fast, easy way to make nep counts — July 47
Getting top results at carding – Alabama TOE meeting — Jan. 67
Handling polyesters on the cotton system — July 130
High-output card gives even sliver (ESN) — Dec. 136
How to process Dacron Type 64 on the woolen system (FYF) — Oct. 81
How to process modified rayon-cotton blends (FYF) — Mar. 119
Jute cards (ESN) — Oct. 176
Pickerless carding shows real promise: first mill report — Sept. 70
Pneumatic pusher releases lap pins (ESN) — Dec. 123
Polypropylene staple: how to process it (FYF) — Apr. 118
Problem-solver for small lots: small yarn-production centers — May 70
Quick way to calculate woolen-card output — July 47
Rag pulling machines (ESN) — June 146
Swift Spinning Mills – textiles' most automated plant — June 60
Upholstery prints have all-nylon surface (FYF) — May 77
Yarn manufacturing today: is automation's big push underway? – report — June 46

Carpets

Carpet sales: how big in 1965?....in 1970? — Oct. 66
Commercial Carpet Corp., Brookline Fabrics div. – new plant bucks tufted trend with woven carpet — Sept. 207
Dyeable olefin staple carpets debut (FYF) — July 283
Dyeing 1-million pounds of tufted carpets a month — Jan. 81
Fine steel filaments eliminate static (FYF) — Mar. 117
First 100% Fortrel tufted rugs bow in (FYF) — June 127
Foam and nylon team up in new carpet backing (FYF) — Apr. 117
'Fur' look area rugs made of polyester pile (FYF) — July 285
Machine backs wide carpets (ESN) — Dec. 136
A new staple fiber for tufted carpets — Oct. 61
How Candlewick spins it — Oct. 62
How Philadelphia uses it for tufted carpets — Oct. 63
How Rossville piece-dyes tufted polyprop carpets — Oct. 119
Nylon tufted carpet has no 'rowiness' (FYF) — Sept. 226
Olefin carpeting new use – outdoor golf putting courses (FYF) — Apr. 117
Processing bulked nylon yarn into carpets – some tips (FYF) — July 285
Saran-modacrylic fabric resists sun and mildew (FYF) — Aug. 76
Tufted nylon carpet covers moon vehicle wheel-tire (FYF) — Feb. 81

Chemical treatment and finishing (see also **Bleaching; Coated fabrics; Dyeing; Laminated fabrics**)

The Acme-McCrary story Part 3: Finishing hosiery for top quality — Mar. 78
Acrylic acid derivative will shrinkproof wool — Feb. 100
Acrylic latex (ESN) — Dec. 146
Air tension control reduces seconds (CC) — Sept. 214
Alkyl phenols speed polypropylene dyeing — Jan. 76
Aluminizing fabrics by vacuum — May 113
AATCC convention – coated fabrics look big — Dec. 103
AATCC tackles printers' problems — Feb. 99
ATME 1965: design for the finishing and dyeing plants of tomorrow — Nov. 80
Amphoteric softeners — Aug. 101
Antioxidant is new way to boost wet strength — Nov. 75
Antistat for polyamides is durable to washing — Apr. 74
Antistat is durable to cleaning methods — Jan. 76
APO: 100% fixation of dyes on most fibers — Dec. 76
Bactericide is washfast, nonirritating — Aug. 100
Batch system bleaches 30% faster (CC) — Mar. 126
Batching system needs no mix tank (ESN) — June 139
Better wash-wear sparks new research — June 79
Bonded textiles
Part 1 – Hot today and getting hotter — Sept. 184
Part 2 – What's new in adhesive bonding — Oct. 108
Breathable rainwear by new method — June 81
British find new way to flameproof emulsions — Jan. 77
Brown marks on wet cotton goods can give trouble in vat dyeing — June 82
Buffers keep epoxides from hydrolyzing — Jan. 76
Cationic assistants improve yield in resin finishing and dyeing — Jan. 77
Caustic reduces soluble vat dyes — Jan. 78
Chainless mercerizing machine (ESN) — May 174
Chloramines: new way to chlorinate wool — Feb. 100
Chlorinated catalysts improve water repellent — Feb. 101
Chlorine-bromine activator shrinkproofs wool continuously — Aug. 100
Chlorine-resin treatment improves wool many ways — Oct. 101
Choosing dyes for roller printing — Mar. 89
Cloth finishing press (ESN) — Apr. 158
Coating acts as carrier for glass-fiber colors — June 81
Coating two sides in one run — May 109
Cobalt complex speeds flash aging — Mar. 74
Color matching: today's newest methods and why you need them — Apr. 78
Color meters are fast, accurate (ESN) — Dec. 126
Combinations of antibiotics with metals make excellent rotproofing chemicals — July 217
Commercial Carpet Corp., Brookline Fabrics div. – new plant bucks tufted trend with woven carpet — Sept. 207
Continuous singeing unit (ESN) — June 156
Control boosts production 10% (CC) — Nov. 134
Controls cut labor cost by 50% (CC) — Sept. 214

(CC) Cost Cutters. (Ed) Editorial. (ESN) Equipment & Supply News. (FYF) Fibers, Yarns, and Fabrics.

Copolymer dispersions aid bonding and create many new finish effects ... Sept. 180
Cotton Finishing Conference – wash-wear, DP pack cotton meeting ... Nov. 91
Course counter cuts tricot costs 20% (CC) ... Feb. 92
Covers save $100 in roll costs (CC) ... Oct. 144
Crease-resistant finish has top-notch strength ... May 100
Decater acts alone or with other units (ESN) ... Oct. 151
Decatizer gives wide range of softness (ESN) ... Mar. 131
Delayed-cure process is simple for woolens ... Mar. 75
Desizing efficiency ... Dec. 76
Detergents can be precipitated from waste liquors to reduce foaming ... Aug. 101
Dihydroxy monoureins give new w-w finishes ... Nov. 75
Dimensional stability of rayon fabrics ... June 82
Diols provide control of vat dye migration ... Jan. 77
Double cure process improves durable press ... Dec. 75
Driven selvage uncurlers (ESN) ... Nov. 146
Drum dries wool top 20% faster (CC) ... May 141
Drycleaning process mills woolens, too ... Feb. 102
Durable press – AATCC gets pointers ... May 99
Durable press – big breakthrough ... Apr. 73
Durable press and the cutter – problems and how you can help ... Apr. 101
DP finish key: wet fixation process ... Dec. 73
Durable-press finishes for wool trousers ... May 102
Durable press going worldwide ... Nov. 77
Durable-press oven comes in 3 sizes (ESN) ... May 151
Durable press – overcuring, the bane of durable press ... May 99
Durable press packs 'em in at Charlotte AATCC meeting ... Mar. 74
Durable water repellents withstand boiling tests ... Mar. 73
Dye boarder (ESN) ... Aug. 130
Dye jig (ESN) ... Feb. 148
Dye tubes stripped ten times faster (CC) ... Jan. 124
Dyeing 1-million pounds of tufted carpets a month ... Jan. 81
Easy knockdown marks shrinking range (ESN) ... Aug. 127
Edge-guide system trims waste (ESN) ... Nov. 144
Epoxy resin-polyamide is antisoil, antistatic ... July 217
Expander (ESN) ... Dec. 138
Extractors (ESN) ... Sept. 285
Finish preserves nap on acrylic fabrics ... Apr. 73
Finish protects dyeings against light-fading ... Mar. 74
Finish resists light, heat and lengthens nylon life ... Oct. 101
Finishing machine (ESN) ... June 142
Fixation of oily soils on treated fabric ... Oct. 101
Formaldehyde as useful modifier of cellulose fibers ... Jan. 78
Formaldehyde good inhibitor against yellowing and heating of moist grease wool ... Apr. 75
Formaldehyde process gives wet and dry crease resistance ... June 80
Free-wheeling expander eliminates wrinkles (ESN) ... Jan. 130
French chromyl acetate treatment increases dyeability of olefins ... Apr. 74
Gamma rays may be resin-curing agent of the future ... Nov. 77
Germans get wet crease resistance with less loss of fiber strength ... Apr. 75
Globe Dye Works' 100th birthday – how a century old dyer stays on top ... Aug. 115
Guiders boost cloth speed 20% (CC) ... May 142
Halides don't yellow melamine-resined goods ... Jan. 75
Heat resistance boosted on cotton, rayon, other cellulosics with new treatment ... Dec. 75
High-expression mangle roll (ESN) ... Nov. 150
Hot-metal applicating system (ESN) ... Feb. 130
Interfacial polymerization uses ... Dec. 76
Ionization-polymerization process – coating method of the future? ... Apr. 73
Ironing of triacetates made easier ... Apr. 73
Japanese boost wash-wear with acid-formaldehyde ... Aug. 100
Jig (ESN) ... July 300
Key to good stretch apparel – a fabric designed for the purpose ... Mar. 73
LAS detergents pass biodegradability test ... Jan. 76
Leveling agent unaffected by alkalis ... Aug. 99
Long liquor for soaping off loose color ... Sept. 181
Low volatility of disperse dyes not necessarily an ideal quality ... Nov. 77
Lubricators save wear plus $2,500 (CC) ... June 134
Mercerize to get maximum color value after bleaching ... Jan. 78
Method stabilizes tricot for draperies ... July 217
Methylol urea resin, delayed-cure, has long shelf life ... Feb. 101
Modified N-methylolamides improve wash-wear ... Sept. 180
Modified softeners improve dirt resistance ... May 101
Moving next door to your customers – Kenyon Southern Inc. ... Mar. 83
Napper has new raising action (ESN) ... Dec. 135
Nappers double narrow fabric output (CC) ... Sept. 211
9 tips on setting up to finish wide fabrics ... June 103
1965 textile finishes chart ... July 222
One-run dyeing and finishing: how you can make it work ... June 92
Optical brighteners that work well with resin finishes ... Aug. 101
Organo-phosphates aid bonding procedures ... June 82
Phoenix Trimming Co. formula for success: stick to a specialty ... Sept. 190
Phosphates hold key to crease resistance ... May 99
Polyamide fibers can be made hydrophilic by applying silica gel ... July 217
Polyamide finish resists chlorine ... May 100
Polyaziridine compounds control wool shrinkage ... May 99
Polypropylene – old-time buck sour makes polypropylene dyeable ... June 80
Polyvinyl and polyethylene compounds boost effect of optical brighteners ... Aug. 101
Power spray speeds output 1,000% (CC) ... Oct. 146
Presensitizing process prepares wool for permanent creases or pleats ... June 81
Producing finished bedspreads ... Jan. 91
Quick way to dye fibers with reactive dyes ... Sept. 179
Reactants, modified sulfone, promise good wash-wear, less deterioration ... Dec. 74
Resin-dye plus alkaline catalyst gives wash-wear, dyeing in one run ... Feb. 100
Resin holds the key in one-run finishing ... Feb. 99
Resin precrosslinking improves finish ... Jan. 77
Resin treatments bolster cotton batts ... July 215
Resistance to wet and dry creases with new process ... Nov. 76
Reverse roll coater (ESN) ... Mar. 134
Second curing with a catalyst will produce dry crease resistance ... July 217
Secret of new resin: close control of pH ... June 81
Shields reduce damage in delayed-cure goods ... Jan. 76
Shrinkproofing treatment works for wool tops ... Jan. 77
Silazane binders tie dyes to glass ... June 80
Silicone-zirconates improve repellents ... Mar. 73
Slack mercerize for filling stretch – do not allow warp shrinkage ... Feb. 102
Sodium-sulfite deodorant improved with phosphates and sugars ... Oct. 100
Soft detergents easily biodegradable ... Aug. 101
Softener (ESN) ... Dec. 138
Soldiers' pants get permanent crease ... May 100
Solvent aftertreatment improves finishes ... Nov. 76
Solvent degreasing – will it replace conventional scouring? ... Feb. 104
Solvent process makes cotton flame resistant ... Feb. 99
Solvent-soluble water repellents give top-notch stability ... Jan. 75
Spandex – report
What you should know about dyeing and finishing ... Dec. 78
Using care in handling to maintain stretch ... Dec. 88
Dyeing men's cotton stretch socks ... Dec. 90
Speed control ups tuber output 10% (CC) ... Jan. 122
Spray cuts cleaning time by 1/3 (CC) ... Nov. 129
Spray treatment improves pile fabrics ... July 215
Stabilize rayon yarns with repeated wetting, drying ... Nov. 75
Steam cabinet (ESN) ... Feb. 130
Steam curing of certain resins raises tensile strength of goods ... July 216
Steamer (ESN) ... Feb. 140
Stiff finish resists laundering, chlorine ... Apr. 74
Stretch process cuts w-w strength loss ... Dec. 73
Swelling agent promotes resistance to creases ... Dec. 74
Tank for chlorine bleach storage lasts 5 times as long (CC) ... Feb. 94
Tenter can dry and heatset (ESN) ... June 140
Tenter frame (ESN) ... Sept. 285
Tenter frame needs no pins, no clips (ESN) ... Nov. 143
Thorough afterwash for reactive dyes is important ... Apr. 75
Tris-amines for wash-wear finishes resist chlorine and strength loss ... May 101
Tumble action maintains loft in napped fabrics ... Sept. 179
Two-speed dryer cuts overtime 80% ... (CC) ... Apr. 108
USDA finds synergistic effect makes wool shrink-resistant ... Jan. 76
Vapor-phase grafting methods boost performance of finishes ... July 216
Vapor recovery saves $14,000 yearly (CC) ... Nov. 134
Versatile hoist cuts time losses (CC) ... Nov. 129
Vinyl-coated fabrics – can you cash in on the soaring demand? ... Aug. 104
How two big plants make vinyl-coated fabrics
1. Ford Motor Co's Mt. Clemens plant ... Aug. 105
2. Union Carbide's Bound Brook plant ... Aug. 108
Wash-wear finishing helps slack-mercerized cotton fabrics retain elasticity ... Feb. 102
Washer (ESN) ... July 298
Water and stain repellent doesn't build up on guide rolls ... Feb. 101
Wet-resin process gives new effects ... Jan. 75
Winders (ESN) ... Sept. 281
Wool finishing – details spell success ... Sept. 194
Wool flatsetting methods key: fabric pH before it's treated ... Mar. 75
Wool shrinkproofing varies ... Jan. 78
Yellowing of nylon fabric during heatsetting ... June 82

Cleaners, textile-equipment
Textile plant buildings today – report Data chart: specs on 10 new textile plants ... May 58
Traveling cleaners save manual one (CC) ... Aug. 87
Vacuum cleans looms 33% faster (CC) ... Jan. 120
Yarn manufacturing today: is automation's big push underway? – report ... June 46

Cleaning, plant-maintenance (see **Maintenance, buildings and grounds**)

Cloth room
ATME 1965: design for the finishing and dyeing plants of tomorrow ... Nov. 80
Bonder, Weldexing machine (ESN) ... Oct. 168
Cloth cutter (ESN) ... May 176
Cloth-cutting machine (ESN) ... May 174
Cloth-spreading machine (ESN) ... Nov. 164
Compactor gives new effects (ESN) ... Oct. 152
Counter speeds prodcution 10% (CC) ... Sept. 214
Decatizing machine (ESN) ... Aug. 134
Driven selvage uncurlers (ESN) ... Nov. 146
Dust-removal and static-elimination system (ESN) ... Oct. 177
Easy knockdown marks shrinking range (ESN) ... Aug. 127
Edge-guide system trims waste (ESN) ... Nov. 144
Guiders boost cloth speed 20% (CC) ... May 142
Gun cuts waste .25 percentage point (ESN) ... Dec. 126
Machine cuts carpets 300% faster (CC) ... Nov. 130
The John H. Montgomery Mill story – Pt. 2 Climate for making cloth is almost like magic ... Aug. 46
Miniature frame acts like big one (ESN) ... Oct. 152
Napper (ESN) ... Aug. 132
Ribbon slitter (ESN) ... Mar. 142
Schreiner calender (ESN) ... Sept. 268
The Springsteen story: grading cloth ... Nov. 48
Stretching form (ESN) ... Aug. 136
Unwind stands (ESN) ... Sept. 256

Coated fabrics (see also **Chemical treatment and finishing**)
Aluminizing fabrics by vacuum ... May 113
AATCC convention – coated fabrics look big ... Dec. 103
Breathable rainwear by new method ... June 81
Coating acts as carrier for glass-fiber colors ... June 81
Coating two sides in one run ... May 109
Covers save $100 in roll costs (CC) ... Oct. 144
German coated fabric breathes, stops water (FYF) ... Oct. 81
Hot melt coater (ESN) ... Nov. 160
Ionization-polymerization process – coating method of the future? ... Apr. 73
Lightweight nylon fabric breathes, repels rain (FYF) ... Aug. 76
Machine backs wide carpets (ESN) ... Dec. 136
Metalized fabrics have high sun reflectivity (FYF) ... Jan. 113
Nylon fabric makes mobile heliport (FYF) ... July 284
Polyamide-based coating produces chamois finish ... Apr. 75
Vinyl-coated fabrics – can you cash in on the soaring demand? ... Aug. 104
How two big plants make vinyl-coated fabrics
1. Ford Motor Co.'s Mt. Clemens plant ... Aug. 105
2. Union Carbide's Bound Brook plant ... Aug. 108

Combing and lap winding
Comb takes nearly any feed (ESN) ... Sept. 240
Cotton graph shows effective fiber length ... July 48
11 combers do work of 20 (CC) ... Feb. 92
Noble comb (ESN) ... Apr. 174
Rectilinear comb (ESN) ... Oct. 176
The Springsteen story: a step-by-step look at how Springs handles polyester-cotton blends ... Nov. 44
Swift Spinning Mills – textiles' most automated plant ... June 60

Competition (see **Markets and marketing**)

Controls, electrical (see **Electrical equipment**)

Conveyors (see **Material handling**)

Cost Cutters
Jan. 120, Feb. 91, Mar. 123, Apr. 107, May 141, June 133, Aug. 87, Sept. 211, Oct. 143, Nov. 129, Dec. 123

Costs, labor
Calculating winder incentive rates ... July 80
How textiles look around the world: editor's report Part 2 – Pakistan to Hong Kong ... Mar. 49
Using counters to pay warper incentives ... July 84

Costs, materials and supplies
How textiles look around the world: editor's report Part 2 – Pakistan to Hong Kong ... Mar. 49
Hungarians to build nylon 6 plant and use their own nylon processes (FYF) ... June 128

Cotton processing (see process headings such as **Spinning; Chemical treatment and finishing, etc.**)

Cotton-crop analysis
1965 cotton chart ... Oct. 85
San Joaquin cotton: excellent ... Feb. 73
Two late cotton crop reports: the results are mixed – Southeast: fair quality, waste low; Mid-South: big yield, high quality ... Jan. 118

D

Data Handling
Electronic data processing – how two mills are using it ... Jan. 48
Mill No. 1 – Keeping close control of inventory ... Jan. 49
Mill No. 2 – Reacting to new market trends ... Jan. 54
EDP: newest hero for tufted-carpet makers ... Nov. 108
Report 1: EDP eases growing pains ... Nov. 109
Report 2: EDP updates sales data daily ... Nov. 111
Report 3: EDP rides herd on 7 warehouses ... Nov. 113
Mathematical programing – a new way to mesh production and sales for top profits
Part 1: Using the graphic method ... June 72
Part 2: A simple way to use computer analysis and matrix programing ... Aug. 66
New management information center means speedy decision-making for Deering Milliken ... Aug. 80

Design, fabric (see **Fabric design**)

Doffing (see also **Material handling**)
Doffer (ESN) ... Oct. 162
Swift Spinning Mills – textiles' most automated plant ... June 60

Drawing (see **Roving and drawing**)

Drives, electrical (see **Electrical equipment**)

Drying and drying equipment
Can-type dryer (ESN) ... Mar. 134
Drum dries wool top 20% faster (CC) ... May 141
Drum dryer (ESN) ... June 156
Dryer (ESN) ... May 154
Spandex – report
What you should know about dyeing and finishing spandex ... Dec. 78
Using hot air and infrared to heatset fabrics containing corespun spandex ... Dec. 80
Two-speed dryer cuts overtime 80% (C) ... Apr. 108

Dyeing (see also **Chemical treatment and finishing**)
Above-boil beck speeds dyeing (ESN) ... Nov. 144
The Acme-McCrary story Part 3: Finishing hosiery for top quality ... Mar. 78
Alkali treatment makes foams dyeable ... Oct. 100
Alkyl phenols speed polypropylene dyeing ... Jan. 76
Alumina process if you want to use only one class of dyes to dye blends ... Aug. 100

AATCC convention – coated fabrics look big ... Dec. 103
AATCC finds balm for dye-plant headaches ... Oct. 99
ATME 1965: design for the finishing and dyeing plants of tomorrow ... Nov. 80
Amine boranes stabilize acid-leuco vat liquors ... June 80
Assistant helps level reactives on polyamides ... Dec. 75
Assistants give level acrylic dyeings ... Mar. 75
Blocking agent speeds polyurethane dyeing ... Nov. 77
Boron trifluoride mix boosts dye takeup ... Dec. 73
Brand-new reactive dyes will work on conventional pad-steam ranges ... Aug. 99
British develop colors for dyeing polypropylene ... Aug. 99
Brown marks on wet cotton goods can give trouble in vat dyeing ... June 82
Calcium and magnesium salts present in cotton fiber – cure ... Mar. 75
Cationic assistants improve yield in resin finishing and dyeing ... Jan. 77
Cationic dye fixing agent improves reactive-dye yield ... Oct. 101
Caustic reduces soluble vat dyes ... Jan. 78
Caustic treatment strengthens linen goods ... Oct. 101
Color matching: today's newest methods and why you need them ... Apr. 78
Continuous process dyes 1,000 pounds in an hour ... Oct. 100
Control ups production 30 to 60% (ESN) ... Dec. 123
Danish jig handles a wide range of fabrics (ESN) ... Nov. 143
Digital computers speed color matching ... Nov. 77
Diols provide control of vat dye migration ... Jan. 77
Disperse dyeing of acetate and polyester overseas report (FYF) ... Feb. 81
Disperse dyes dispersed in cold water ... Jan. 78
Dual emulsifiers boost carrier performance ... Nov. 75
Dyeable olefin staple carpets debut (FYF) ... July 283
Dyeable polyprop gets set in fiber race ... July 216
Dyebeck runs above the boil (ESN) ... June 139
Dyer (ESN) ... Nov. 148
Dyeing assistants will speed thermofixing ... Feb. 101
Dyeing and bleaching machine (ESN) ... Sept. 276
Dyeing cycle automated (ESN) ... Jan. 130
Dyeing machine (ESN) Aug. 142 ... Oct. 174
Dyeing 1-million pounds of tufted carpets a month ... Jan. 81
Dyeing range (ESN) ... Sept. 281
Effective humidity of a fabric surface ... Mar. 75
French assistants help to keep unlike dyes in the same solution ... Sept. 101
French chromyl acetate treatment increases dyeability of olefins ... Apr. 74
Gas fading answer ... Jan. 78
German color cards tie in with computers ... Mar. 74
German-developed process gives quick, fast blacks on hydrophobics ... Aug. 101
Hand, elongation, and natural crease resistance of woolen fabrics affected by dyeing method ... Apr. 75
Heater ups thermofixing to 120 ypm. (ESN) ... Dec. 123
Hexamethylene tetramine boosts leveler action in wool dyeings ... Dec. 75
High-frequency electric current will induce fine dispersions of dyes not soluble in water ... Sept. 181
Hydrazines boost color yield of reactive dyes ... Aug. 99
Iodine or hydrolodic acid in dyebath improves lightfastness of polypropylene ... June 82
Italian solvent bath makes polyprop dyeable ... Sept. 181
Laboratory dyer (ESN) ... Oct. 158
Leveling agent unaffected by alkalis ... Aug. 99
Levelness of wool dyeings improved ... Dec. 76
Linking agents make simple dyes reactive ... Aug. 100
Machine cuts drying time 40% (CC) ... Aug. 88
Machine dyes acrylics fast (ESN) ... Apr. 151
Method produces level dyeing with acid dyes on polyamide fibers ... July 217
Moisture-laden hot air dyes triacetates deeper ... Apr. 75
Monochloro reactives speed dye pickup ... Apr. 74
Moving next door to your customers – Kenyon Southern Inc. ... Mar. 83
Multicolor dyeings process treats mordanted, unmordanted wools ... Nov. 76
Naphthol-type dyes look good for polypropylene applications ... May 100
A new staple fiber for tufted carpets ... Oct. 61
How Candlewick spins it ... Oct. 62
How Philadelphia uses it for tufted carpets ... Oct. 63
How Rossville piece-dyes tufted polyprop carpets ... Oct. 119
No-boil process dyes wool fast ... Mar. 73
Nonmetallic chelates added to melt will improve pololefin dyeing ... Nov. 77
Nonvolatile carriers work well with no odor ... Feb. 100
Nylon 6, 6 increased dyeability – overseas report (FYF) ... Feb. 81
Oil-in-water emulsion for vat dyes boosts color value, cuts dye costs ... July 215
One-bath finish (ESN) ... Dec. 140
One-run dyeing and finishing: how you can make it work ... June 92
Oxidation blacks work on polyester fiber ... June 80
Pad on acid or premetalized acid dyes to nylon ... May 102
Pad-steam dyeing process for protein fibers works fast at room temperatures ... Dec. 74
Phoenix Trimming Co. formula for success: stick to a specialty ... Sept. 190
Polyamide pretreatment aids in level dyeing ... Sept. 181
Polyamides – special dyebath produces bright and washfast shades ... Sept. 181
Polyester-cotton fabrics dyeing ... Dec. 76
Polyether assistants improve yield and levelness of Thermosol dyeings ... Dec. 73
Polyfunctional agents widen dye usefulness ... Dec. 75
Polyhydric alcohols stop precipitation ... Dec. 74
Polyolefin (with metal) dyeings – after-treatment boosts lightfastness ... Nov. 76
Polypropylene – better dye receptivity – overseas report (FYF) ... Feb. 81
Polypropylene dyeing: where it stands today ... Feb. 109
Polypropylene dyes have good washfastness ... Jan. 75
Premetalized dyes on acrylic fibers ... Feb. 102
Pressure dyeing machine (ESN) ... Sept. 244
Process ups washfastness of acid-dyed polyamides ... July 216
Producing finished bedspreads ... Jan. 91
Quick way to dye fibers with reactive dyes ... Sept. 179
Reactive dye series is fast to soaping ... July 215
Reactive dyeings improved by aftertreatment with acid ... Oct. 100
Reactive dyes for nylon ... May 102
Reactive dyes stable in printing pastes ... Nov. 77
Reducing bath in packaged-yarn dyeing – add caustic and hydro simultaneously ... Mar. 75
Resin-dye plus alkaline catalyst gives wash-wear, dyeing in one run ... Feb. 100
Resin holds the key in one-run finishing ... Feb. 99
Setting up your own dyehouse? Here are 5 steps to take – Dover Mills took them ... Nov. 85
Silent electric discharge speeds wool coloring, reduces felting ... June 79
Skein dyer handles most fibers (ESN) ... June 140
Sodium thiocyanate will aid in dyeing polypropylene fiber ... Oct. 101
Solubilizing method improves disperse dyes ... Apr. 74
Soluble polyamides level vat dyeings ... Feb. 101
Spandex – report – What you should know about dyeing and finishing spandex ... Dec. 78
Staining of reactive-dyed goods halted by new process ... Oct. 100
Synergistic combining of assistants produces good wool-nylon unions ... Aug. 101
Tank for chlorine bleach storage lasts 5 times as long (CC) ... Feb. 94
Tertiary amine additive deepens reactive color ... Dec. 74
Tertiary amines boost reactive dye colors ... Sept. 179
Thermofixation unit works at high speed (ESN) ... June 140
Thermosol routine for acrylic-cellulose blend fabrics ... Oct. 99
Thorough blending of cotton is still the best insurance of eliminating dyeing irregularities ... May 102
Triacetate and nylon fabrics tend to show more in jig dyeing ... May 102
Triacetate treatment ups strength, heat resistance, and dyeability ... Nov. 75
Ultraviolet absorbers key to dyeing polyprop ... Aug. 99
Variation in results of cold-pad-hold processes ... Dec. 76
Water-soluble vat dyes work well in batches ... Aug. 101
Wet-out speed of wetting agents ... Mar. 75
Wiscassett Mills – three credos for building a new yarn-dyeing plant ... May 104
Wool dyeing process is fast, easy on fiber ... Nov, 76
Wool dyeing with no deterioration of fiber ... Dec. 76
Wool finishing – details spell success ... Sept. 194

Dyes and chemicals, new
Acid colors ... Aug. 102

38 tips for building your new textile plant .... May 52
Data chart: specs on 10 new textile plants .. May 58
Trend Carpet Mills – saving $13,000 in power costs ..... June 113

Hoists (see **Material handling**)

Hosiery (see **Knitting, hosiery**)

I

Imports
How textiles look around the world: editor's report
Part 1 – London to Israel ..... Feb. 50
Part 2 – Pakistan to Hong Kong ..... Mar. 49
Part 3 – Taiwan to Japan ..... Apr. 58
Japan hikes U. S. acrylic exports to over 1-million pounds a month (FYF) ..... Feb. 80

Industrial Engineering
How to calculate loom production ..... July 88
Keeping an eye on weaveroom productivity ..... July 94
Problem-solver for small lots: small yarn-production centers ..... May 70

Inspection (see also **Quality control; Tests and testers**)
Color measuring system (ESN) ..... Feb. 148
Detector spots fabric holes fast (ESN) ..... July 293
Electronics used to knit fancy tricot fabrics for women's wear ..... Apr. 50
One machine can inspect and seam (ESN) ..... May 152
Scanner boosts knitter job loads (ESN) ..... Mar. 132
Stroboscope, electronic (ESN) ..... Dec. 140
Stop motion boosts roving output (ESN) ..... Dec. 126

Instruments (see also **Electrical equipment; Inspection; Research; Tests and testers**)
ATME 1965 Yarn manufacturing: instruments ... Nov. 59
Color-matching lights will be better soon ..... May 100
Controller keeps tension uniform (ESN) ..... Apr. 151
Controller, twin-channel (ESN) ..... Nov. 162
Device keeps stretch even (ESN) ..... Apr. 152
Digital computers speed color matching ..... Nov. 77
Edge trimming device (ESN) ..... Dec. 138
Electronics used to knit fancy tricot fabrics for women's wear ..... Apr. 50
Filling feeler ups loom efficiency (CC) ..... Apr. 108
Grip (ESN) ..... July 297
Humidity controller (ESN) ..... Sept. 272
Indicating recording controller (ESN) ..... Sept. 285
Indicator spots broken ends quickly (ESN) ..... Apr. 151
Meter (ESN) ..... Nov. 150
Moisture measurer controls, records (ESN) ..... Sept. 239
Moisture meter (ESN) ..... Nov. 154
Moisture monitor (ESN) ..... Sept. 285
Pressure indicators (ESN) ..... July 297
Stop motion boosts roving output (ESN) ..... Dec. 126
Stop motion device (ESN) ..... Sept. 283
Strip chart recorder (ESN) ..... Nov. 150
Web tensioner needs no weights (ESN) ..... Aug. 127
Yarn clearer measures accurately (ESN) ..... Dec. 135
Yarn control gages length (ESN) ..... Oct. 152
Yarn feeder (ESN) ..... Aug. 144

K

Knit goods, dyeing and finishing of (see **Chemical treatment and finishing**)

Knitting, circular
ATME 1965 Knitting ..... Nov. 66
Cleaner cuts needle breaks 50% (ESN) ..... Dec. 126
Knitgoods jig cuts labor cost 60% (CC) ..... Apr. 107
Knitter produces variety of fabrics (ESN) ..... May 152
Laboratory knitter (ESN) ..... Mar. 136
Lycra spandex, three types – how to process them for knitting (FYF) ..... Nov. 139
Magnetic tensioner (ESN) ..... Nov. 152
Rack system moves knits 25% faster (CC) ..... Feb. 91
Scanners cut cloth seconds 50% (CC) ..... June 134
6 steps to eliminate barré on double knits ..... July 98
Spandex – report ..... Dec. 43
Knitting spandex catches fire ..... Dec. 44
Knitting spandex – hottest of them all ..... Dec. 46
Stitch control system (ESN) ..... Feb. 150

Knitting, flatbed
Knitting machine turns welt automatically (ESN) May 151
Looper (ESN) ..... Nov. 174
Magnetic tensioner (ESN) ..... Nov. 152
Processing a brand-new yarn – multifilament nylon ..... Jan. 116
Small knitter is run by punched cards (ESN) ..... Sept. 239
Spandex – report ..... Dec. 43
Knitting spandex – hottest of them all ..... Dec. 46
Switches cut sewing costs 85% (CC) ..... June 134

Knitting hosiery
The Acme-McCrary story
Women's hosiery: how a North Carolina mill stays at the top — Mar. 42
Part 1: Using the best in methods, machines — Mar. 43
Part 2: Managing progress and people — Mar. 46
Part 3: Finishing hosiery for top quality — Mar. 78
Automatic 4-feed machine (ESN) — May 156
Burlington's big new center gives hosiery manufacturing a new look — June 120
Do-all machine speeds hose (ESN) — Sept. 240
8-feed knitting machine — a stocking in 90 seconds (ESN) — Mar. 132
4 rules for producing faultless micromesh hosiery — July 98
Hosiery machines (ESN) — Feb. 144, May 178
Knitter makes hose plain or in pattern (ESN) — Dec. 135
Multihead knitter works fast (ESN) — Aug. 127
Rib-knit hosiery machine (ESN) — Feb. 134
Spandex — report — Dec. 43
Knitting spandex — hottest of them all — Dec. 46
Newest hosiery development — it's corespun spandex — Dec. 48
What you should know about dyeing and finishing spandex — Dec. 78
Dyeing men's cotton stretch socks — Dec. 90
Thread cutter speeds seaming 15% (ESN) — Dec. 126

Knitting, warp
ATME 1965 Knitting — Nov. 66
Apparel fabrics spark Stevens' line (FYF) — July 283
Course counter cuts tricot costs 20% (CC) — Feb. 92
Crepe tricot fabric looks like matte jersey (FYF) — Dec. 115
Crepeset nylon — helps for knitting (FYF) — Dec. 116
Electronics used to knit fancy tricot fabrics for women's wear — Apr. 50
Knit your own, says mail-order house — Aug. 59
Knitting Arts Show — 1965 — June 65
Nylon tricot extends bonding to wash-wear (FYF) — Jan. 111
Spandex — report — Dec. 43
Knitting spandex — hottest of them all — Dec. 46
Making yarns for foundation garments — on-the-spot report — Dec. 59
Tricot fabric with look and feel of a doubleknit with new process (FYF) — Aug. 76
Tricot machine (ESN) — May 170
Tufted nylon carpet covers moon vehicle wheel-tire (FYF) — Feb. 81

Knitting Arts Exhibition (see **Exhibitions**)

L

Labor efficiency
How textiles look around the world: editor's report Part 2 — Pakistan to Hong Kong — Mar. 49
Puerto Rico — making quality stretch yarns — Feb. 66

Labor, management of (see **Supervision**)

Labor, training of (see **Training; Supervision**)

Laminated fabrics (see also **Chemical treatment and finishing**)
Bonded textiles
Part 1 — Hot today and getting hotter — Sept. 184
Part 2 — What's new in adhesive bonding — Oct. 108
Commercial Carpet Corp., Brookline Fabrics div. — new plant bucks tufted trend with woven carpet — Sept. 207
Foam peeling machine (ESN) — June 152
Laminating urethane foam to fabrics — no adhesive needed (FYF) — Sept. 226
Upholstery prints have all-nylon surface (FYF) — May 77

Lap winding (see **Combing and lap winding**)

Laws and regulations
Cooley bill — A base to start from (Ed) — June 45
Credit where it's due.... for a square deal and a go-ahead (Ed) — Oct. 47
The one-price cotton issue: what's brewing in Washington — Apr. 42

Layout, plant
Making today's "hottest" yarns — Fedelon Throwing Corp. — Jan. 44
Textile plant buildings today — report Data chart: specs on 10 new textile plants — May 58

Lighting (see also **Electrical equipment**)
Fluorescent starter (ESN) — Dec. 146
Lamps cut broken filaments 38% (CC) — Aug. 90
Lighting product (ESN) — Sept. 244

Looms (see **Weaving**)

Lubrications (see also **Maintenance, equipment and machinery**)
Device ups spindle life (CC) — Nov. 130
Lube system cuts oiling work in half (CC) — Jan. 124
Lubricant (ESN) — Sept. 256
Lubricant boosts moisture retention (ESN) — Aug. 128
Lubricator (ESN) — Sept. 242

M

Machine-shop equipment and methods
Balanced bobbins double speeds (CC) — May 144
Cutter cuts gear cost 50% (CC) — May 142

Maintenance, buildings and grounds (see also **Building construction**)
Floor cleaner (ESN) — Dec. 156
Maintenance platform (ESN) — Dec. 152
Paints — what you should know about paints — July 122
Protective coating (ESN) — Dec. 138
Roofing material (ESN) — Dec. 154
Textile plant buildings today — report Data chart: specs on 10 new textile plants — May 58

Maintenance, equipment and machinery (see also **Lubrication**)
Agitator speeds parts cleaning (CC) — Sept. 212
Balanced bobbins double speeds (CC) — May 144
Cutter cuts gear cost 50% (CC) — May 142
Expander (ESN) — Dec. 138
Leveling mount (ESN) — Dec. 138
Puerto Rico — making quality stretch yarns — Feb. 66
Rolls replace worn journals fast (ESN) — Feb. 127
Roof-patching material (ESN) — Aug. 132
Spindle holder cuts repair cost 50% (CC) — Mar. 124
Spray cuts cleaning time by 1/3 (CC) — Nov. 129
Valve maintenance cut 10% (CC) — Oct. 144
When should you replace spinning costs? — Jan. 68
Wrench boosts weaveroom quality 1% (CC) — Feb. 92

Management (see also **Economics, textile industry; Research; Supervision**)

INDEX TO COMPANIES AND MILLS

A

ACME-McCRARY CORP. – The Acme-McCrary story
Women's hosiery: how a North Carolina mill stays at the top — Mar. 42
Pt. 1: Using the best in methods, machines — Mar. 43
Pt. 2: Managing progress and people — Mar. 46
Pt. 3: Finishing hosiery for top quality — Mar. 78
ALBANY FELT CO. – Plant visitors: how good is your hospitality? Laurence Christiansen Jr. — Mar. 60
ALLIED CHEMICAL CORP. – Showcase for man-made fibers lights up Broadway Noreen Heimbold — Dec. 64
AMERICAN & EFIRD THREAD MILLS – Update, expand, improve – how A&E stays ahead — Feb. 62
When should you replace spinning cots? — Jan. 68
AMERICAN LAMINATORS – Bonded textiles – output streamlined, boosted to 50 ypm. — Sept. 186
AMERICAN THREAD CO. – Capsule characterizations of new plant — May 48
ANCHOR DYEING & FINISHING CO. – In finishing wool, details spell success — Sept. 194
AVONDALE MILLS – Building management strength from within your company — Aug. 62

B

BEAR BRAND HOSIERY CO. – Developing a process to control tension on spindles — Dec. 58
BLOOMSBURG MILLS – Capsule characterizations of new plant — May 48
BONDATEX MILLS – Bonded textiles – straight-line production and long runs — Sept. 188
BRENTFORD NYLONS, LTD. – Knit your own, says mail-order house — Aug. 59
BRISTOL TEXTILE PRINTING INC. – Printing flocked designs — Jan. 87
BURLINGTON HOSIERY COMPANY – A big new center gives hosiery manufacturing a new look — June 120

C

CABIN CRAFTS INC. – EDP updates sales data daily R.B. Pressley — Nov. 108
CALICO PRINTERS ASSOCIATION LTD. – Solvent degreasing E.M. Hargreaves — Feb. 106
COIN SALES CORP. – Adhesive-bonding textiles – Merchandising for top sales — Oct. 114
COMMERCIAL CARPET CORP., BROOKLINE FABRICS DIV. – New plant bucks tufted trend with woven carpet — Sept. 207
COMPANIA INDUSTRIAL de ORIZABA S.A. (CIDOSA) – Renaissance in Mexican textiles: how one company is leading the way Wes Perry — Nov. 104
COMPTON & KNOWLES-MALIMO INC. – Malimo – hot in East Germany, Will it catch on here? — Oct. 48
CONSTELLATION FINISHING CO. – Dyeing 1-million pounds of tufted carpets a month — Jan. 81
COOPER TEXTILE MILLS INC. – Electronic data processing – reacting to new market trends Gilbert Cooper — Jan. 54
CORONET INDUSTRIES – EDP eases growing pains R. B. Pressley — Nov. 108
CROWN COTTON MILLS – Pickerless carding shows real promise: first mill report — Sept. 70

D

DAN RIVER MILLS – Electronic data processing – keeping close control of inventory — Jan. 49
DEERING MILLIKEN INC. – New management information center means speedy decision-making — Aug. 80
DENBY, WILLIAM & SONS LTD. – Solvent degreasing E.M. Hargreaves — Feb. 104
DIXIE YARNS INC. – Making core-spun spandex in a brand-new spinning plant — Apr. 46
Starting from scratch — Dec. 59
DIXIE YARNS INC.–CANDLEWICK YARN MILLS DIV., – A new staple fiber for tufted carpets – How Candlewick spins staple polypropylene — Oct. 62
DOVER MILLS CO. – Setting up your own dye-house? Here are 5 steps to take — Nov. 85
DUBOIS DYEING CO. – Capsule characterizations of new plant — May 49
Du Pont de Nemours & Co., E.I. – Using hot air and infrared to heatset fabrics containing corespun spandex Frame & Van Denend — Dec. 80

F

FEDELON THROWING CORP. – Making today's "hottest" yarns — Jan. 44
FIELDCREST MILLS INC. – How should you train tomorrow's managers? Dr. W. McGehee
Pt. 1: What to think about before you start a program — Oct. 58
Pt. 2: Lectures....conferences....case studies ....where they fit into training — Nov. 52
Pt. 3: Role playing....sensitivity sessions.... where they fit into training — Dec. 60
FITZGERALD MILLS CORP. – How one company makes corespun spandex fabrics — Dec. 53
FORD MOTOR CO. – Mt. Clemens plant – how to make vinyl-coated fabrics — Aug. 105

G

GLEN RAVEN MILLS – New office design – image of a company on the move — Feb. 56
GLOBE DYE WORKS – 100th birthday – how a century-old dyer stays on top — Aug. 115

H

HAUNSTETTER SPINNERS & WEAVERS – Double-barreled modernization plan cuts labor, boosts quality J.R. Mikton — Jan. 58
HOLLISTON MILLS – Capsule characterizations of new plant — May 49
HORNWOOD TEXTILES, INC. – Using electronics to knit fancy tricot fabrics for women's wear — Apr. 50

I

IMPERIAL CHEMICAL INDUSTRIES LTD. – Solvent degreasing – will it replace conventional scouring? E.M. Hargreaves — Feb. 104
INDIA MILLS – Problem-solver for small lots: small yarn-production centers Trevor Holloway — May 70
INFRA-RED SYSTEMS INC. – Using hot air and infrared to heatset fabrics containing corespun spandex Frame & Van Denend — Dec. 80
INTERNATIONAL YARN CORPORATION – Making quality stretch yarns in Puerto Rico R.B. Pressley — Feb. 66

J

JOANNA COTTON MILLS CO. – How to get the most from 800 new looms — Sept. 66

K

KENDALL CO. – Belgian looms: how they stack up R.B. Pressley — May 66
KENNETH COTTON MILLS – Production finishing bedspreads — Jan. 91
KENYON SOUTHERN INC. – Moving next door to your customers — Mar. 83
KONINKLIJKE TEXTIEFABRIEKEN NIJVERDAL-TEN CATE N.V. – Managing a textile company Dutch style Paul Catz — Sept. 63

L

LINCOLN PROCESSING CORP. – Adhesive-bonding textiles – building your own bonding machinery — Oct. 114
LOCK-LINED CORP. – Adhesive-bonding textiles – Researching as well as producing — Oct. 112

M

MONTGOMERY, JOHN H. MILL – The industry's newest plant has sparkle, space, and spirit — Aug. 42
Pt. 1: Efficiency is the byword in making yarn — Aug. 44
Pt. 2: Climate for making cloth is almost like magic — Aug. 46
Pt. 3: Building is spacious, services reliable — Aug. 50
MOORE, GEORGE C. CO. – Capsule characterizations of new plant — May 49
MT. VERNON DRYER FELT CO., MT. VERNON MILLS – Capsule characterizations of new plant — May 50
MO-VAC INTERNATIONAL INC. – Aluminizing fabrics by vacuum — May 113

P

PHILADELPHIA CARPET CO. – A new staple fiber for tufted carpets – How Philadelphia uses it for tufted carpets — Oct. 63
PHOENIX TRIMMING CO. – Formula for success: stick to a specialty — Sept. 190

R

RAMAPO PIECE DYE WORKS INC. – Handling polyester-cellulosics and cotton terry fabrics — Apr. 91
ROSFER MILLS CORP., DIVISION OF PYRAMID MFG. CO. – Bonded textiles – goods are wrinkle-free, aligned just right — Sept. 188
ROSSVILLE CARPET DYEING CO. – A new staple fiber for tufted carpets – How Rossville piece-dyes tufted polyprop carpets — Oct. 119

S

SANTEE PRINT WORKS – 9 tips on setting up to finish wide fabrics — June 103
SAPONA MFG. CO. – Whither stretch-yarn technology? — Sept. 75
SEARS ROEBUCK & CO. – Bonded textiles quality control – how Sears Roebuck handles it — Oct. 110
SHAWMUT INC. – Bonded textiles – the right hand, weight, and appearance — Sept. 186
SIGNAL THREAD CO. – Specialization spells success — Apr. 53
SPARTAN MILLS – Capsule characterizations of new plant — May 50
Revamping an old mill to meet pressure for expansion — Mar. 56
SPRINGS COTTON MILLS – Four key questions about switching from cotton to polyester blends — Nov. 42
SPRINGS COTTON MILLS – SCOTLAND MILLS, subsidiary – Capsule characterizations of new plant — May 50
STANDFAST DYERS & PRINTERS LTD. – Solvent degreasing E.M. Hargreaves — Feb. 106
STEVENS, J.P. & CO. – Capsule characterizations of new plant — May 51
STUART, J. & W. LTD., ESK MILLS – 8 cards do the work of 56 at this mill A.W. Smith — Mar. 64
SUN CHEMICAL CORP., ELECTRO-TECHNICAL PRODUCTS DIV. – Coating two sides in one run — May 109
SWEETWATER HOSIERY MILLS INC. – Newest hosiery development – it's corespun spandex — Dec. 48
SWIFT SPINNING MILLS – Capsule characterizations of new plant — May 51
Textiles' most automated plant — June 60

T

TREND CARPET MILLS – Saving $13,000 in power costs — June 113

U

UNION CARBIDE CORP – Fibers & Fabrics Div. Bound Book plant – how to make vinyl coated fabrics — Aug. 108
U.S. RUBBER CO. – Handling hundreds of styles — Dec. 56

V

V.E.B. MALITEX – Malimo
Case Study 1 – World's first Malimo plant — Oct. 54
Case Study 2 – Malitex main plant — Oct. 55
Case Study 3 – Biggest, most modern mill — Oct. 55
Case Study 4 – First continuous Malimo line — Oct. 57

W

WARNER BROS. CO. – Making yarns for foundation garments — Dec. 59
Processing a brand-new yarn — Jan. 116
WARSHOW, H. & SONS INC. – Getting complete warp control — Feb. 74
WATKINSON, JAMES & SONS LTD. – Solvent degreasing E.M. Hargreaves — Feb. 106
WISCASSETT MILLS CO. – Three credos for building a new yarn-dyeing plant — May 104
WORLD CARPET MILLS – EDP rides herd on 7 warehouses R.B. Pressley — Nov. 108
